School

Sponsor A Tree Project

As part of a project to improve the school's outdoor areas and provide a safe and stimulating learning environment we would like to ask our community to help by sponsoring a tree. Money raised will be used to plant a hedge around the Reception class garden. More information can be found on the school website or by visiting the school office. On Friday 17th March (12pm - 3.15pm) we will begin digging and clearing the borders. Volunteers are welcome.
