Chairman's Announcement

Before the commencement of the meeting, Councillor Alan Hooper, outlined the purpose and procedure for this meeting to ensure that it was effective, lawful, and safe.

Before the commencement of the meeting, Chairman Councillor Alan Hooper, introduced Dinah Ward from South Yorkshire Climate Alliance on how Communities can make Christmas more environmentally friendly.

The presentation was to give awareness of how we can make Christmas more sustainable for the planet. Dinah gave us a few ideas to be mindful of, which are listed below.

- Instead of buying presents, offer time with people.
- Give second hand or homemade gifts.
- Buy responsibly.
- Create fun activities for family and friends.
- Make your own Christmas tree and decorations.
- Use LED lights as they use less energy.
- Buy enough food for what you need.
- Share the responsibility of buying and cooking the food.
- Limit snack foods, so the packaging is less.

This aims to make us aware of climate change and global carbon emissions and the impact of what is bought and thrown away and how it impacts this greatly. Also, to make us aware that climate change and global carbon emissions is all year round and not just at certain times of the year. More ideas can be found for a more sustainable Christmas on the website which can be found at candosouthyorkshire.org.uk

The Chairman thanked Dinah for attending and offered to promote the activities of the South Yorkshire Climate Alliance on the Council website.

Proposed by Councillor Mick Gethin and seconded by Councillor Victoria Bowden and **RESOLVED:** That the Council has no objections or comments to make on these planning applications except for:

- 1) 21/03962/LBC and 21/03832/FUL - Sylvester Farm, 448 Whitley Lane, Sheffield, S35 8RQ - Alterations to existing garage to form habitable accommodation and enlargement of 1x side and 1x front window of the farmhouse.
The Committee are in full support of the Urban Design and Conservation team regarding their concerns on the proposed enlargement of the windows to this farm complex of which is a listed building. The lowering of the cills would create a

- proportion, which is not within keeping on an 18th century building.
- 2) 21/04801/FUL - 209 High Street, Ecclesfield, Sheffield, S35 9XB - Erection of a dwellinghouse (Resubmission of 20/04177/FUL).

The Committee are in full support of the neighbour objections relating to this resubmission of planning application 20/04117/FUL of which are listed below.

- Concerns were raised as to the insufficient size of the plot for the development.
- Drainage issues.
- Excess surface water is cascading from the sloping site down onto the estate behind the development since the trees were removed to enable the houses at 209 High Street to be built. An additional dwelling will add to the run-off of water especially at times of rain and snow.

Also, the Council would like an investigation into the drainage and excess surface water problems on this site either prior to his consideration or as a condition and asks that the Sheffield City Council Planning Committee consider this application and all the objections before this planning application is considered for approval.
